*Confidential — Prepared for System Pricing & Commercial Valuation Assessment*

EXECUTIVE SUMMARY

1. Unified Operating System Replacing Disconnected Tools

Fragmented Tools vs. One Workspace

Replaces scattered spreadsheets, WhatsApp groups, manual receipts, and notebook tracking with a single central platform.

Complete Operational Visibility

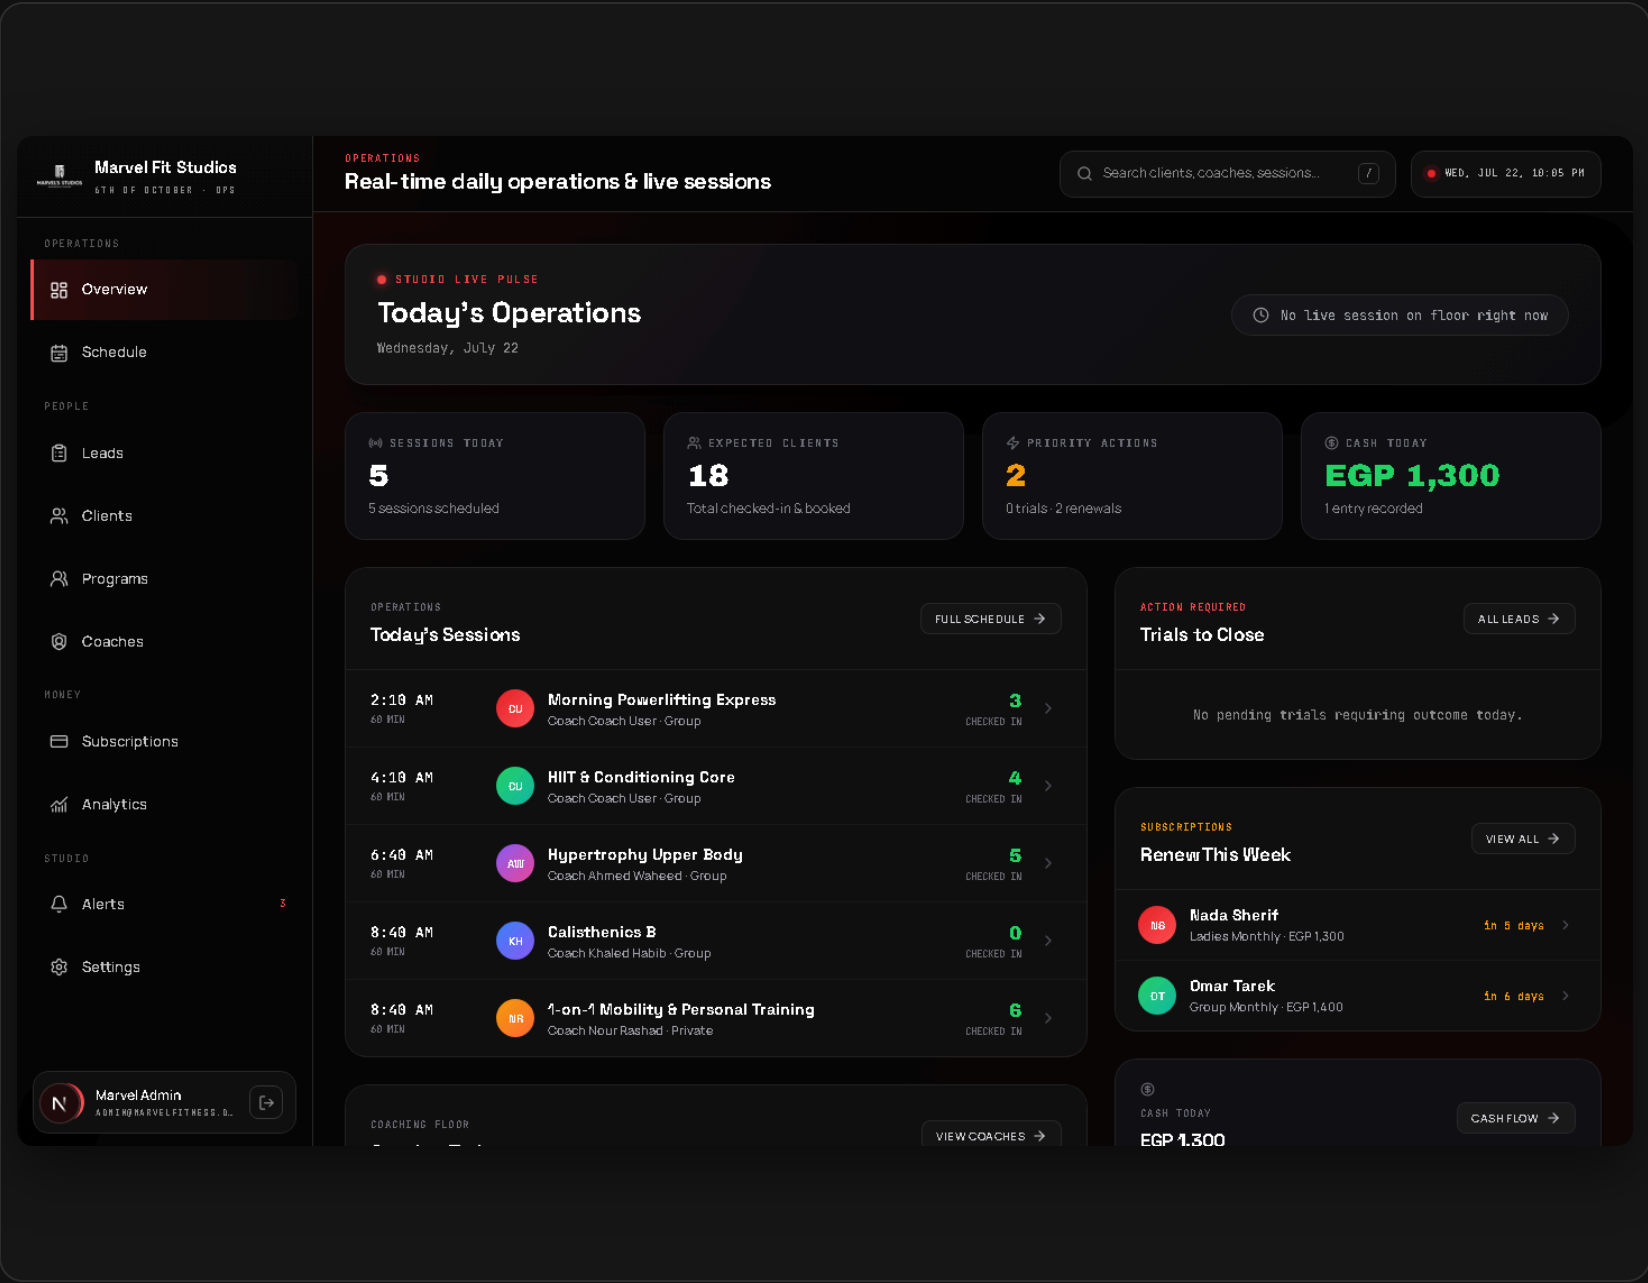

Provides live studio pulse, roster check-ins, automated renewal alerts, and audited daily cash movement.

Role-Tailored Security & Workspaces

Separate high-security Admin Command Center and Coach Workspaces ensuring data privacy and operational focus.

Turn-Key Production Readiness

Engineered with zero technical debt, complete test coverage, automated migrations, and enterprise-grade resilience.

## 2. Role-Based Workspaces: Admin & Coach Control Centers

### Admin Command Center

Real-time studio stats, live floor pulse, pending trial actions, upcoming renewals, and cash ledger controls.

### Coach Floor Workspace

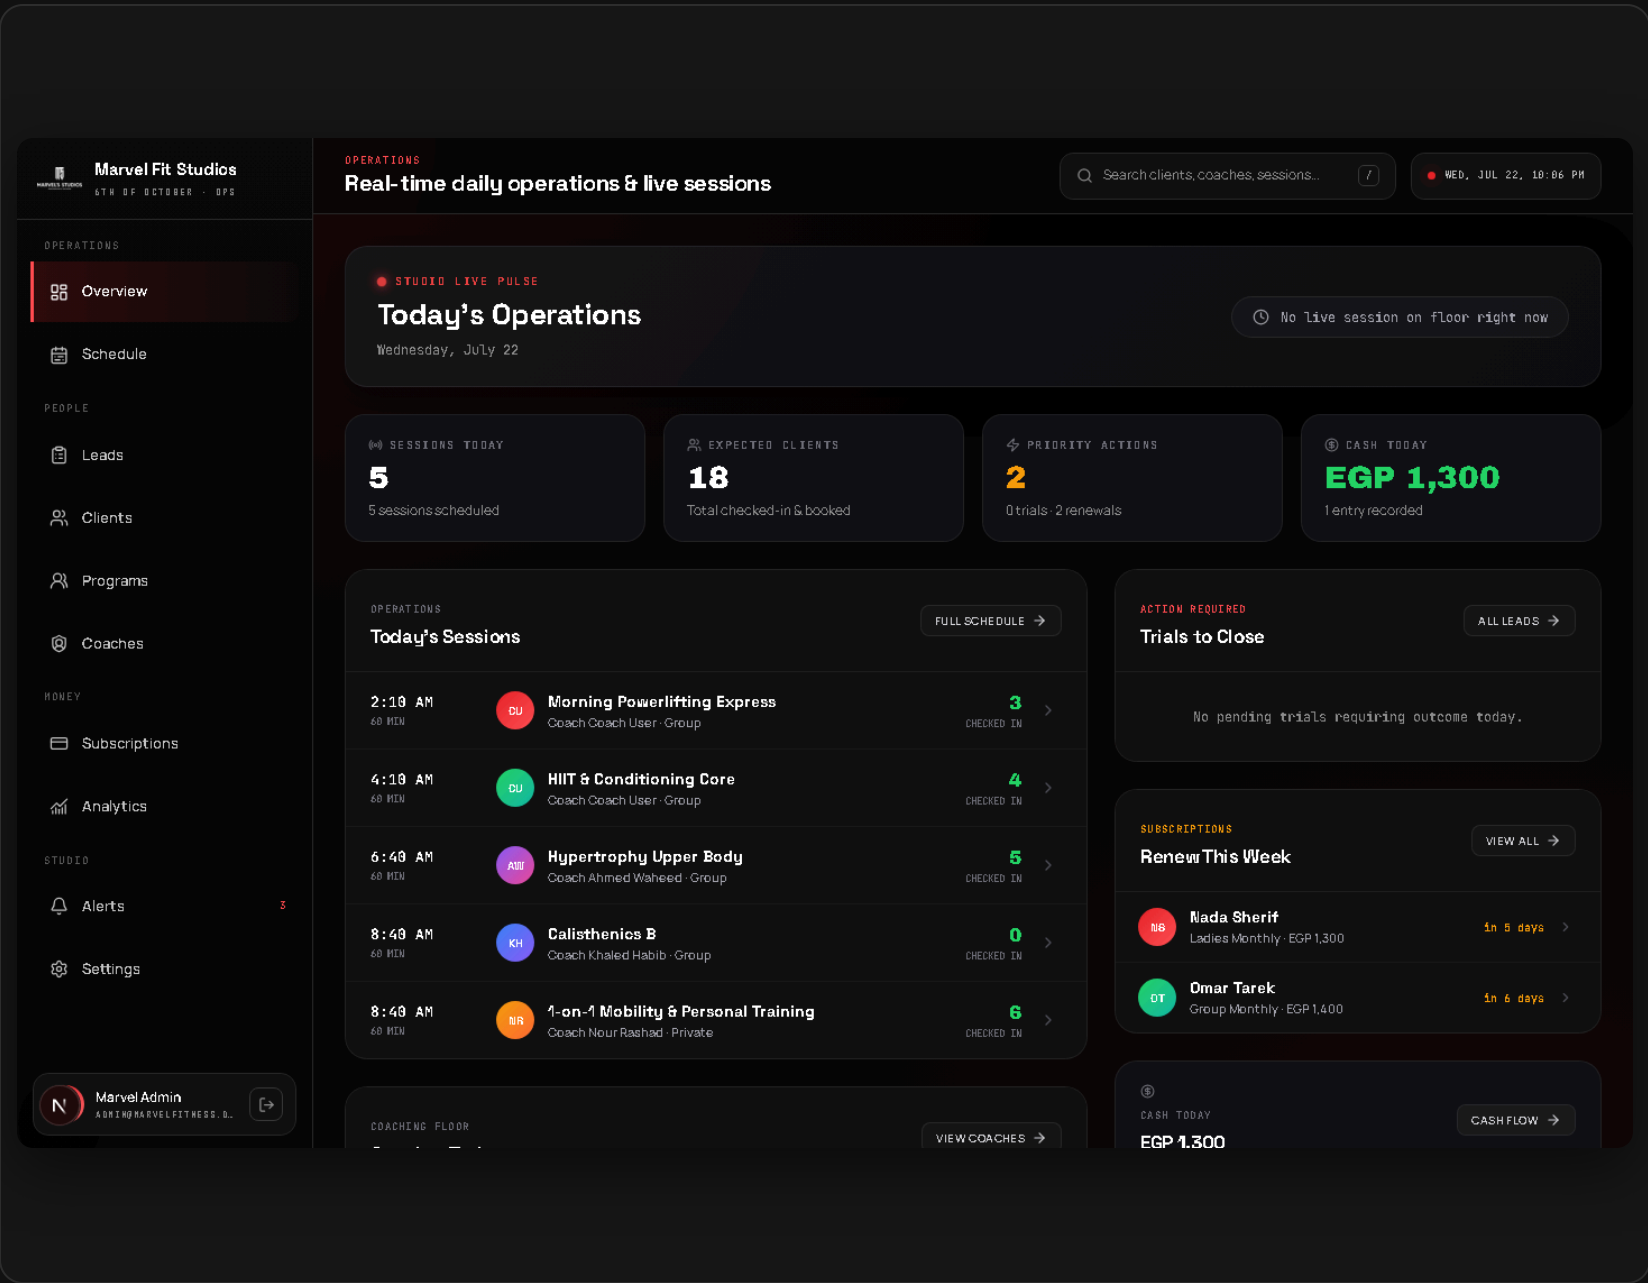

Focused mobile & desktop view for coaches with assigned clients, roster check-in, and injury flags.

### Strict Permission Boundaries

Coaches access only floor attendance and client medical context — administrative revenue data remains locked.

### Instant Action Triggers

One-click attendance check-in, quick lead follow-ups, and direct WhatsApp client messaging.

# 3. Prospect Acquisition & Lead Conversion Pipeline

## Structured Acquisition Funnel

Tracks leads through New → Trial Booked → Trial Done → Won / Lost conversion stages.

## Trial Session Integration

Links prospective members directly to group trial sessions with automated outcome tracking.

## Loss Reason Analytics

Captures detailed reasons for lost leads (location, timing, pricing) for business intelligence.

## One-Click Lead Conversion

Converts successful trials into active client profiles and subscriptions seamlessly.

## 4. Member Intelligence & Clinical Injury Prevention

## 360-Degree Client Dossiers

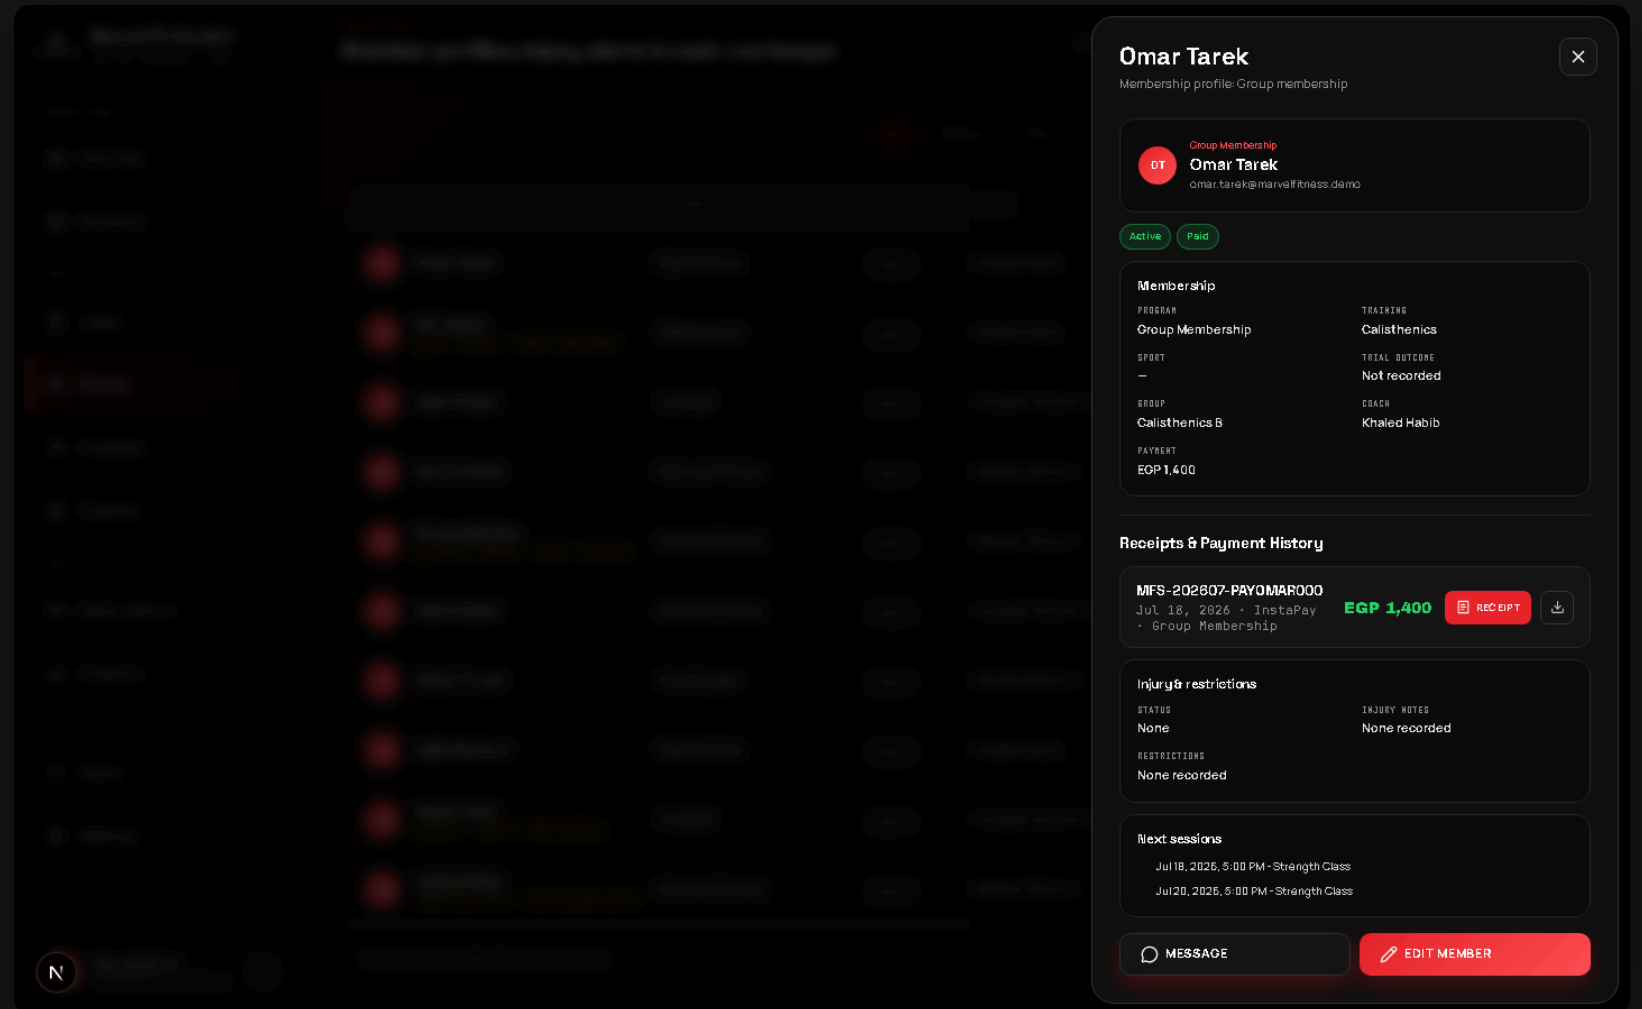

## Clinical Injury Flags

Real-time warning badges for ACL, meniscus, lumbar strains, and movement restrictions across all views.

## Floor-Level Safety Rules

Ensures coaches and admins see injury notes directly on class rosters to prevent aggravated injury.

## Direct Communication

# 5. Dynamic Weekly Scheduling & Roster Attendance

## Multiple Schedule Views

Chronological Agenda, Week Cards, and Hourly Grid views tailored for high-volume studio scheduling.

## Real-Time Live Status

Automated status badges indicating ● Live Now, Upcoming, or Ended sessions based on Cairo time.

## Granular Attendance States

Track Attended, Late, Missed, and Excused attendance with mandatory excuse notes.

## Recurring Session Automation

Manage weekly group templates and generate recurring occurrences with exception handling.

# 6. Subscription Lifecycle & Automated Payment Ledger

## Flexible Membership Plans

Supports Group, Private, and Hybrid subscription plans with session count limits.

## Session Balance Tracking

Automatically decrements remaining sessions upon attendance check-in with low-balance alerts.

## Subscription Controls

Full lifecycle actions: Pause, Resume, Cancel, and Renew subscriptions with date precision.

## Auditable Digital Receipts

Generates branded digital receipts with unique receipt numbers and instant PDF export.

# 7. Financial Operations & Cash Movement Audit

## Real-Time Cash Flow Ledger

Tracks cash-in receipts and categorised cash-out expenditures with net movement calculations.

## Payment Method Breakdown

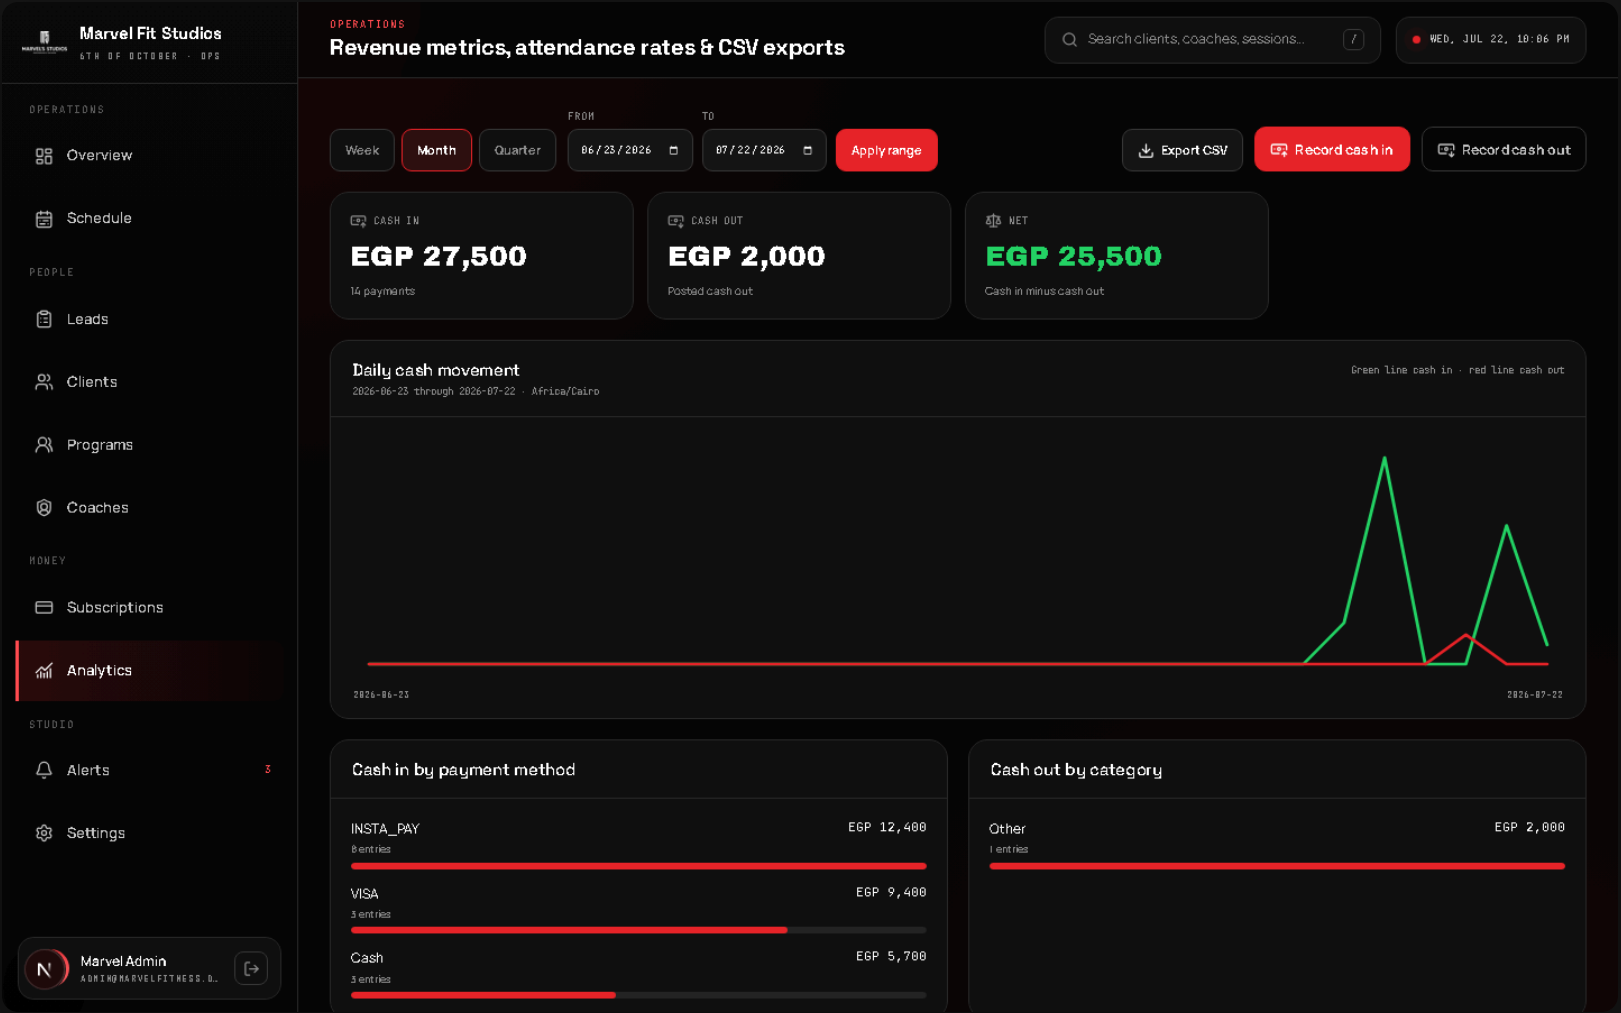

Monitors revenue distribution across InstaPay, Visa, Cash, and Bank Transfers.

## Date Range Filtering

Filter financial reports by custom date ranges, weekly, monthly, or quarterly periods.

## CSV Data Export

One-click export of complete financial ledgers for external accounting and tax compliance.

# 8. Full-Stack Next.js 16 App Router & Enterprise Security Stack

## Frontend & UI Framework

Next.js 16.2 App Router, React 18, TypeScript 5, Radix UI primitives, Lucide Icons, and 100% custom CSS token design system.

## Database & Security Boundary

Supabase PostgreSQL database with Row Level Security (RLS), transactional RPC functions, and server-only service role boundary.

## Auth & Access Control

Auth.js v5 JWT credentials authentication, bcrypt password hashing, forced password change flow, and strict role permissions.

## Testing & Production Verification

Vitest unit & contract suites, Playwright E2E browser tests, ESLint, TypeScript checks, and automated Vercel deployment pipeline.

## 9. System Commercial Assets & Valuation Highlights

### Turn-Key Operational Product

Fully functional, production-ready fitness studio operating system ready for immediate commercial deployment.

### Proprietary IP & Custom Code

100% bespoke codebase (no generic templates), custom design system, and studio domain logic.

### Scalable SaaS Architecture

Structured data model easily adaptable for multi-branch studio chains or SaaS multi-tenant licensing.

### High Market Demand Domain

Solves high-friction daily operational challenges for fitness studios, gyms, and sports academies.
